## Weatherboy

On a grey day in Spring something magical happened. A little boy was born and the sun started to shine. When he cried his first tears raindrops fell. Weatherboy was unique and he quite liked being unique but as more people asked for sun, snow or thunder, he leaves.

The further he goes the more he feels lonely, the world is covered in snow and ice. There is almost no hope until there is a knock on his door. A picture book about accepting who you are.
